

A Bhavani Prasanth

Associate Software Engineer | Content Creation

anupojubhavani9849@gmail.com | +91 9849392214 | DOB - 11 apr, 2004

SKILLS

PROGRAMMING

Languages

- **Advance:** Python, Prompt Engineering
- **Intermediate:** C,
- **Novice:** JavaScript, php

Tools

- GIT • Linux • Windows • N8N

Frameworks

- Angular • Express.js
- Node • FastAPI

Technologies

- HTML • CSS
- React.js
- SQL
- MongoDB
- Tailwind CSS
- PostgreSQL

OTHERS

- Professional dancer
- Gym enthusiast
- Public Speaking
- Exploring new technologies

EDUCATION

B. Tech, ECE

Sasi Institute of Technology
2022-26 | Tadepalligudem
CGPA: 7.4

Intermediate, MPC

Narayana Junior College
2020-22 | Ramachandrapuram
Percentage: 61.4%

High school

ST.ANN.Gloria
2019-20 | Ramachandrapuram
Percentage: 86.4%

LANGUAGES KNOWN

- English • Telugu

Communication Skills : By TCS

AI Foundation course : By Oracle

Artificial Intelligence course : By Infosys

Prompt Engineering Building : By UpGrad

Responsive page : By Geekster

PROJECT(S)

ECT-Cloud Vault [php](#) | [API](#) | [SQL](#)

Problem: Many students suffer to collect the pdf's from the faculty all the time.

- ECT-Cloud Vault is the platform where all the materials will be available
- The pdf's will be uploaded by the CR and the Faculty as well

web-based smart waste management system using image recognition

- Developed a web-based smart waste management system using image recognition, enabling users to register/login and promote accountability in maintaining clean surroundings.
- Implemented a feature to capture and submit images while disposing waste, automatically generating reports to encourage responsible behavior.

Finance CRM :

- Developed a Finance CRM/ERM web application enabling companies to register/login and manage financial data efficiently.
- Implemented modules to track client details, projects, and expenses, allowing structured entry and organization of financial records.

Takletix (Client Project) [React.js](#) | [Node.js](#) | [Mongo DB](#) | [Express](#)

- Developed Full website for a Freelancing company

SP Collection (clothing store) [HTML](#) | [CSS](#) | [Java script](#)

- Developed Fully responsive clothing store

online-complaint-submission [React.js](#) | [Node.js](#) | [Mongo DB](#) | [Express](#)

- Built an Online Complaint Registration and Management System where users can submit, track, and manage complaints easily

Hotel Management (book a bunk) [python](#) | [Mongo DB](#)

- book-a-bunk - A modern hotel booking and food ordering platform.

N8N PROJECTS:

AI- Powered Form replay

- Developed an AI-powered automated form response system using webhook-based workflows, capturing user submissions from a website and analyzing intent to qualify leads.

Customer Support AI Agent

- Developed a Customer Support AI Agent using webhook-based workflows, enabling real-time chatbot interactions that analyze user queries and respond accordingly.

AI Digital Marketing Content Ecosystem 2026

- Developed a Customer Support AI Agent using webhook-based workflows, enabling real-time chatbot interactions that analyze user queries and respond accordingly.

INTERNSHIPS 05/2025 – 07/2025

MERN STACK SUMMER INTERNSHIP

- SmartInternz & SmartBridge Certified MERN Stack Developer, experienced in designing and developing full-stack applications using MongoDB, Express.js, React.js, and Node.js, with hands-on experience in coding and unit testing for reliable performance.

Full Stack Developer & N8N Automation Engineer Intern at Codewebster LLP

- contributed to building web applications and developing workflow automation solutions using modern full-stack technologies and webhook-based systems.
